

Praveen Suthar

Full Stack Software Engineer

+91-8861126969 praveenssuthar@gmail.com linkedin.com/in/PraveenSuthar08 github.com/Praveen-Suthar-08

Summary

Full Stack Developer building responsive **React.js** interfaces, scalable **REST APIs**, and **cloud-deployed platforms**. Skilled in **React.js**, **Node.js/Express**, **FastAPI**, **Django**, **PostgreSQL**, and **MongoDB**, with practical exposure to **JWT authentication**, **WebSockets**, and **AWS/Firebase deployment**. Comfortable across the full stack, from database schema design to UI implementation, with strong grounding in data structures and algorithms.

Skills

Languages: JavaScript, Python, Java, SQL, C

Frontend: React.js, HTML5, CSS

Backend & APIs: Node.js, Express.js, FastAPI, Django, RESTful API Design

Databases: PostgreSQL, MongoDB, MySQL

Auth & Real-Time: JWT Authentication, WebSockets

Cloud & Tools: AWS, Firebase, Git, GitHub, Postman, VS Code

AI/ML: Scikit-learn, Pandas, TensorFlow

Projects

ReLoop: AI-Driven Donation and Redistribution Platform (SaaS) **2026 (Working)**

- Building a full-stack **SaaS platform** using **React.js**, **FastAPI**, and **PostgreSQL** to connect surplus resources with individuals and communities in need.
- Developed **RESTful APIs**, **ML-based matching logic**, **JWT authentication**, and responsive UI components using **Scikit-learn/Pandas**, with cloud deployment support through **AWS and Firebase**.

Real-Time Cloud Monitoring Dashboard (Web Platform) **2026**

- Built a full-stack **monitoring dashboard** using **React.js** and **Node.js/Express**, streaming live server and API metrics via **WebSockets** and visualizing them with **Chart.js**.
- Designed **REST APIs** and **PostgreSQL schemas** for historical telemetry, trend analysis, alerting, and incident monitoring.

Stranger Collaboration Platform (Real-Time Web App) **2026**

- Developed a **MERN + WebSockets** real-time collaboration platform supporting multi-user interaction and intelligent user matching.
- Implemented **JWT-secured authentication and matching algorithms**, increasing user engagement by **35%**.

ErrandX Marketplace (Web Platform) **2025**

- Built a **scalable MERN-stack marketplace** using **React.js**, **Node.js/Express**, and **MongoDB**, supporting concurrent users and multi-step task workflows.
- Optimized **MongoDB queries and indexing**, reducing API response time by **30%**.

Amazona: Full-Stack E-Commerce Platform (Amazon Clone) **2025**

- Developed a responsive **MERN-stack e-commerce platform** using **React.js**, **Node.js**, **Express.js**, and **MongoDB**, supporting product browsing, filtering, shopping cart, checkout, order management, and role-based access.
- Implemented **JWT authentication**, **BcryptJS password hashing**, **RESTful APIs**, **PayPal checkout**, and **Socket.io real-time customer support**, with seller and administrative dashboards.

Certifications

- **Agentic AI Saksham Program** – Capabl (2026)
- **AWS Solutions Architecture Job Simulation** – Forage (2026)
- **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate** – Oracle (2025)
- **Web Development with AI Tools** – Edunet Foundation (2025–26)
- **AI Skills Passport** – EY and Microsoft (2026)
- **Introduction to Prompt Engineering with GitHub Copilot** – Microsoft (2025)
- **AI-Driven Coding and Project Management with Git** – Parvam (2026)
- **Google AI Essentials** – Great Learning (2026)
- **Generative AI with Machine Learning and LLMs** – Great Learning (2026)

Education

B.E. in Computer Science
City Engineering College, Bangalore

Expected 2027
CGPA: 9.01
